What is a Neuron? Pre-Assessment

Directions

Answer the following questions. This assignment will not be graded.

1. What part of our brain is responsible for emotional memory?
2. What is the size of our amygdala, and what is its shape?
3. Which of these is an instinctual fear rather than a learned one?
 - a. clowns
 - b. fire
 - c. snakes
 - d. dolls
4. Briefly describe why the rat during the experiment we analyzed froze when hearing an auditory response after conditioning.
5. How does the amygdala respond to a normal tone versus a scary one?
6. Where is the amygdala located in our brain?
