Timeline of Climate Change Worksheet

Part 1: Notice and Wonder Chart

Write down what you notice and wonder in the chart below based on this graph.

Human and Natural Influences on Global Temperature

Human and natural factors both influence the earth's climate, but the long-term trend observed over the past century can only be explained by the effect of human activities on climate. Source: U.S. Global Change Research Program, Fourth National Climate Assessment, [Chapter 2: Our Changing Climate](#), 2017.
